COVID-19 Screening Questionnaire

ALL INDIVIDUALS (staff, health care workers, visitors, students, etc.) entering the clinic must be asked the following questions to assist in determining your fitness to work or visitation during the COVID-19 pandemic to provide a safe environment for staff, physicians, nurses and patients.

Date and Time of Screening:

Name of Screened Individual:

Screened by:

Yes ☐ No ☐  Check temperature and document results: Fever present?

Yes ☐ No ☐  (Please circle all that apply)  Are you experiencing any of the following symptoms: fever, new onset of cough or worsening of chronic cough, new or worsening shortness of breath, nasal congestion, headache, feeling unwell, muscle or joint ache, sore throat, runny nose, loss of sense of smell or taste, digestive issue, not related to a pre-existing illness or health condition?

Yes ☐ No ☐  Have you travelled outside of Canada in the past 14 days?

Yes ☐ No ☐  Have you had any contact with a person with acute respiratory illness who has been outside of Canada in the last 14 days?

Yes ☐ No ☐  Have you had a laboratory exposure to biological material known to contain COVID-19?

Yes ☐ No ☐  Have you had close contact with someone who has a probable or confirmed case of COVID-19?

You will NOT be allowed to work or visit if you answer “YES” to any of the above questions, you must self-isolate and contact HealthLink 811.

Please wash your hands or use hand sanitizer throughout your time in the clinic.

We advise you to self-monitor while in the clinic and report any symptoms immediately, and you will be rescreened a second time before leaving the clinic.

NOTE*: People in Alberta are legally required to self-isolate for 14 days after returning from travel outside of Canada or from the date of close contact with a confirmed or probable case of COVID-19.

NOTE*: Anyone who has the symptoms of a cough, a fever, shortness of breath, difficult breathing, runny nose, or sore throat, not related to a pre-existing illness or health condition, is legally required to self-isolate for a minimum of 10 days from the start of symptoms, or until symptoms resolve, whichever is longer and should be tested for COVID-19.
